“As Personal Golf Coach, I’m invested in your success during and after lessons. Just ask!”

“Tee It Up 2 – Play the Game”

Tee It Up 2 – Play the Game, provides experienced golfers with 4 2-hour lessons in the series (1 on range, 3 on course). Experienced golfers focus on playing their best on the course, avoiding swing, short game and putting errors with a sense of recovery skills.

This lesson series covers the full swing, short game and putting skills with a review & improvement session on range, followed by playing sessions that put improved skills into play. We build week to week to improve the range skills, and take it to the course. This builds the confidence to play your best game.

Day 1. Review & Improve the technical skills.

The first session is on the range where we focus on:

- Setup, balance & alignment for straight shots.
- Review existing skills to determine best fixes.
- Build practice routines to secure solid swing skills
- Improve the three areas of Full swing, Short Game and Putting Skills for on course conditions.

Day 2. Full Swing Game off the Tee box.

The first play takes skill improvements to the tee for:

- Sweet spot contact for all your golf shots.
- 3 Power points where you “get all of that one”.
- Take tee box advantage for course management.
- Playing your game for course wind conditions.
- Pre shot routine skills to visualize the shot, see the target & send ball to the target in your mind’s eye.

Day 3. Short Game Money Approach shots.

After tee shot issues, we move closer to the hole to work on the short game with:

- Choosing the right club for the right distance.
- Choosing the right swing for the right target line.
- Chipping & pitching control with club options.
- Bunker basics and surefire get-out skills.
- Fairway bunker shots to get on / near the green.
- Side hill & ball position for solid golf shots.
- Target selection for money approach shots that Match Your Existing Swing & Ball Flight.

Day 4. the important Putt for Dough Game.

With the approach shots done and now we’re on the green, it’s time to Putt for Dough with:

- Pre shot routine for easy Rest, Rock & Roll setup.
- Proper distance control with Personal Stimpmeter.
- Reading the right line to get into / near the cup.
- Proper practice routines to insure confident results for your putting game – the one within you.
- Rules & etiquette on & around the green.
- Managing your putting plan to make the first put close and to get the second one into the cup.

Experienced golfers will enjoy this unique lesson format, more on the course than off. After all It’s all about “*On the Course, Where It Matters!*” So why do we always seem to work on our games OFF the course? This unique program Combines the on range work with the On Course Play for great results... Now you can be on the receiving end of High Fives!

“As Personal Golf Coach, I’m Full Time Teaching! I don’t split my time in the pro shop.”
